CAIO SANTOS

サントス　カイオ

WEB DEVELOPER

SUMMARY

I am very enthusiastic about learning new things and evolving myself through projects, especially regarding technology, innovation, entrepreneurship, and social impact. I would love to see my work carry a purpose, something that can help people and impact their future.

EXPERIENCES

SBWorks - Tokyo
Software Engineer
(March 2022 - Present)
HLJ.COM project. Restructuring all the architecture of the company website to support all the world. Developing e-commerce features from the logic (back-end) to the display (front-end). AWS/Django/Wagtail/Magento/Docker/Rest API for this project.
