CAIO SANTOS

サントス　カイオ

SOFTWARE ENGINEER

SUMMARY

I am very enthusiastic about learning new things and evolving myself through projects, especially regarding technology, innovation, entrepreneurship, and social impact. I would love to see my work carry a purpose, something that can help people and impact their future.

PROJECTS

My Portfolio
caiosantos.me

Kikoe+
www.kikoemas.com
Project to promote high school students' mental well-being. As a team project, I was involved in the entire process, more focused on the back-end, updating Cloudinary, Heroku and Github.

Barter
barter-exchange.herokuapp.com
Barter is a platform that was made for people to exchange their belongings during the Covid-19 pandemic, who weren't able to leave their communities due to restrictions.

Rails Movie List
caiosmovielist.herokuapp.com
That is a project related to making your favorite list of movies. (Using API, Cloudinary and Heroku)
